Hiring Manager

Hiring Team

PT Hubexo Asia Indonesia

Dear Hiring Team,

A customer rarely churns because the product got worse. They churn the moment they stop trusting the invoice. For eleven years, my job was protecting that trust: billing and payment systems that had to be right the first time, every time, for six brokerage platforms and enterprise clients. I have not configured Chargebee itself, and I will not pretend otherwise. What I bring is the harder half of your JD: subscription-ready payment flows on Srabutan.com with Xendit, two end-to-end ERP implementations with legacy data migration, API integrations, data governance, and a habit of making the money path boring on purpose. The rest of the role is work I have done under pressure: translating business requirements into scalable configuration, documenting solution architecture and runbooks, coordinating Finance, Sales, and Product stakeholders, and leading a small technical team with external vendors across APAC, Europe, and North America. Subscription billing is a new platform to me; the discipline it demands is not. I would welcome the opportunity to discuss how I can own your Chargebee solution end to end.

Warm regards,

Bio Lumbantoruan

Solution Architect - Subscription Billing & Business Systems
