Hiring Manager

Hiring Team

Tdecision Malaysia Sdn Bhd (TrustDecision)

Dear Hiring Team,

Fraud detection is not new to me. At CITT Services I enforced anti-fraud and anti-money laundering controls for brokerage clients, verifying client data with KYC platforms like Sumsb. After eleven years on the operator's side, I want to bring that experience to TrustDecision's solutions.

Solution consultant with 11 years of client-facing experience across fintech, combining business consulting with deep technical fluency in AI, machine learning, and data. Skilled in pre-sales consulting, solution planning, product demonstrations, and solution writing for enterprise clients including Pepperstone, TitanFX, and BaxiaMarkets. Hands-on with anti-fraud, anti-money laundering, and big data security, including client data verification with Sumsb.

Key achievements I'd bring to this role:

- Delivered consulting for six fintech brokers, including Pepperstone, TitanFX, and BaxiaMarkets, across 11 years
- Enforced anti-fraud and anti-money laundering controls for brokers, verifying client data with KYC platforms including Sumsb
- Architected AI systems including a production coding agent with RAG memory handling 500+ daily operations

I'm particularly excited about the opportunity to work on srabutan.com - ai-powered freelance marketplace with professional matching, real-time collaboration, and secure payments, architected end-to-end. My architecture philosophy centers on the fact that there are no right answers in architecture, only tradeoffs, and I make those tradeoffs deliberately, documented, and reversible.

I would welcome the opportunity to discuss how my background aligns with your team's needs. Thank you for your time and consideration.

Warm regards,

Bio Lumbantoruan

Solutions Consultant - Fintech Risk & Anti-Fraud
