Cherry Delfina Setiawan
Recruiter
Elitez Indonesia

Dear Cherry,

I have never worked inside a recruitment agency, and I want to be direct about that. What I do have is eleven years of experience being the person companies trust to understand their needs and find the right fit: as a senior consultant for brokers including Pepperstone and TitanFX, as a leader who built teams, and as the architect of an AI-powered matching system that connects professionals with the right projects.

Technology professional with 11 years of client-facing consulting experience across fintech, e-commerce, and SaaS. Familiar with hiring from both sides: evaluating talent, leading teams, and knowing what companies need before they hire. Fluent in English, expert user of LinkedIn and JobStreet, and technically fluent enough to screen IT candidates at a depth most recruiters cannot match.

Key achievements I'd bring to this role:

- Delivered consulting for six brokers, including Pepperstone and TitanFX, over 11 years
- Architected the AI-powered matching system for Srabutan.com
- Fluent in English, confident using it in a professional setting

I'm particularly excited about the opportunity to work on srabutan.com - ai-powered freelance marketplace with professional matching, real-time collaboration, and secure payments. My architecture philosophy centers on the fact that there are no right answers in architecture, only tradeoffs, and I make those tradeoffs deliberately, documented, and reversible.

I would welcome the opportunity to discuss how my background aligns with your team's needs. Thank you for your time and consideration.

Warm regards,

Bio Lumbantoruan
