Hiring Manager

Hiring Team

PT Rakamin Kolektif Madani

Dear Hiring Team,

For eleven years, I did workforce transformation without the title. At CITT Services, when a global broker's support operation was drowning in manual processes, my job was to fix people, process, and technology together: retrain teams, redesign workflows, and win executive buy-in.

Senior delivery and transformation leader with 11+ years managing up to 6 concurrent client engagements at CITT Services, a global fintech consultancy. Led change initiatives connecting people, process, and technology: standardized workflows, SLA frameworks, and escalation protocols; delivered training and coaching that lifted team capability; drove adoption through a continuous improvement system. Native Bahasa Indonesia, professional English, and 11 years of C-level communication under real-money pressure.

Key achievements I'd bring to this role:

- Ran a 6-engagement client portfolio (Pepperstone, TitanFX, FXCM, LiquidityConnect, Traderscolo VPS, BaxiaMarkets) for 11 years with full delivery ownership
- Transformed multi-broker support operations: standardized workflows and SLA frameworks across enterprise clients, coached teams, led incident response under real-money pressure

I'm particularly excited about the opportunity to work on citt services (2014-2025): led multi-broker client delivery across 6 concurrent engagements (pepperstone, titanfx, fxcn, liquidityconnect, traderscolo vps, baxiamarkets). My architecture philosophy centers on the fact that there are no right answers in architecture, only tradeoffs, and I make those tradeoffs deliberately, documented, and reversible.

I would welcome the opportunity to discuss how my background aligns with your team's needs. Thank you for your time and consideration.

Warm regards,

Bio Lumbantoruan
